## 'Round-the-World Theme For Scout Leader Dinner

Canadian Indians, Irish min-sticks and Hawaiian dancing girls contributed to the annual colorful "International Dinner of the Quad-City Girl Scout leaders Tuesday evening at St. John United Church of Christ. Attired in appropriate costumes, the leaders presented food of the countries they represented. Entertainment was provided by each of the five neighborhoods which comprise District Four of the River Bluffs Girl Scout Council.

French songs in the setting of a sidewalk cafe, were sung by Neighborhood One leaders, while Neighborhood Two, representing Canada, featured an Indian War dance.

## Electrical Workers Picketing Station

Two pickets, affiliated with the International Brotherhood of Electrical Workers Local 4 of St. Louis, have been picketing Wenu Radio Station with "informational signs" which officials of the broadcasting firm describe as a "political move" designed to embarrass candidates scheduled to appear on a late afternoon radio program.

The pickets have been appearing in mid-afternoon at the station for the last three days. The picket signs assert that "Wenu is on the 'We Do Not Recognize List' of the Tri-City Trades and Labor Council."

Union action against Wenu is a continuation of a dispute that began several years ago over negotiation of contract with members of the Electrical Workers employed at the station as operators and engineers. Union members went on strike and were replaced by employees who joined the "Teamsters" union. As a result, the radio station was placed on the "unfair list" of the trades council. According to Edwin Reiske, secretary of the trades council, the station remains on the list.

Merrill Davis, business agent of Electrical Workers Local 4, said the recent picketing was carried out "as an informational step to let the people know the radio station is still on the unfair list."

## Postal Union Leader Raps Policy Changes

David Presley, president of Local 182, United Federation of Postal Clerks, predicted today that new patterns of mail distribution will have "disastrous economic consequences" for mobile clerks, railroad employees and ultimately for rail patrons in this area.

He said impending curtailment of railway or highway postal operations here is part of a trend which "is gathering momentum across the nation. Thousands of mobile clerks assigned to ROPs and HPO's face transfer and uprooting of their home, loss of promotion opportunities and ultimate loss of jobs in some instances."

"The trend will also have disastrous economic consequences for railroad workers and ultimately for rail patrons, for experience has shown that such curtailments inevitably contribute to the elimination of passenger service on the affected rail routes."

Presley put part of the blame on the development of a new sectional concept in the postal service whereby the sorting and distribution of unprocessed mail from a wide area is concentrated in a single large facility. He predicted that "log-jams of mail will be inevitable."

## GC Steel Co. Featured In National Magazine

Granite City Steel Co. and its board chairman and president, Nicholas P. Veeder, are featured in the April 1 issue of *Forbes* magazine. Entitled "Who's Scared?" the article reads: "Not Granite City Steel, a small regional producer fighting stepped-up attacks from bigger competitors. Small as it is, Granite City has some impressive things going for it."

The current \$140 million expansion is described, and it is concluded that while the local firm is not on "easy street," its combination of new facilities, "good location and relatively good labor situation surely makes it one of the most fortunate of smaller U. S. steel companies."

HOUSE HUNTING or SELLING CALL JUDD, TR 7-5542

## SECRET LEVEE

(Continued from page 1.)

that any part of the program be known in this area. Briefly, the proposal called for passage of an enabling act in the Illinois legislature permitting the levee district to issue—without referendum—some \$18 million in bonds to purchase the entire facilities of the East St. Louis & Interurban Water Co.

In turn, the levee district would have been permitted to sell to cities and villages the parts of the water system lying within their boundaries. The cities and villages would have been allowed to issue revenue bonds—again without referendum—to buy their respective phases of the water district system.

By the time the plan had become public, enabling legislation already was in the Illinois Legislative Reference Bureau for study, preparation to be introduced in the General Assembly.

Board Vote Sufficient. Under the proposed legislation, the levee district would have the power to set any water rate desired, and purchase of the entire water system would have required no more than the simple passage of a resolution by the levee district's five-man board.

At that time the levee district maintained it had no part in preparation of the plan, and that it had been approached by the consulting firm with the suggestion. The district said it would undertake the project only if the public approved of the proposal, although there was no explanation of how this was to be determined in the absence of any arrangement for a referendum vote.

Bond company representatives, taking the initiative in promoting the deal, sought rapid action by the Illinois General Assembly in approving enabling legislation.

Coal Reception. To do so, the promoters appealed to civic, business and industrial leaders for a stamp of approval that would have given the supporting legislators a "go ahead" sign.

But the proposition met with a cool reception on grounds that the idea was so vast that considerable time would be required to study all aspects of it.

In addition, civic leaders maintained that the project should not be given any consideration whatever unless a referendum clause and a water rate limitation were inserted in the enabling act.

They stressed that unless levee board ownership of the water district could bring advantages to the consumer, there seemed little to recommend such a plan.

Included in these advantages would have to be better service or cheaper rates, sufficiently cheaper to offset the loss in property taxes paid by the utility company. These would have been eliminated with municipal ownership.

Failures Elsewhere. It also was pointed out that communities which had attempted to operate their own distributing systems through purchase of water wholesale had encountered difficulties.

Rates in all such instances were higher than those charged by utilities. Confronted with these obstacles, the levee district and bonding firm were requested to set hearings on the plan to explain it in detail.

Unwilling to Hold Hearings. Shortly thereafter, Senator Milton Mueller of Highland, who had submitted the enabling act in the legislature, announced that the bill would be withdrawn because of insufficient time to provide hearings for all of the groups wanting to investigate the measure.

Among those seeking hearings on the bill at Springfield were the Granite City city council, the Tri-Cities Chamber of Commerce and three East St. Louis organizations.

The withdrawal action killed the move. Although it was indicated at that time that the plan would be revived in the next session of the legislature, it never was presented again.

## Big Twp. Ballots 'Wasting Taxes'

Taxpayers' money is being wasted with unnecessarily large ballots and printing costs, three Nameki township board candidates charged in a statement this week. They said their names are being scattered over "a wide area of the ballot" in an attempt to confuse voters.

"Is this the American way," Edison Phelps, Keith Hart and Matthew "Mike" Ropac asked. "Why is the present administration so bitterly opposed to normal opposition? Is it because we are strongly and openly opposed to the gold-plated sewer program that they are trying to impose on Nameki township citizens?"

Linking the supervisor and town clerk to the unusual ballot arrangement, Phelps, Hart and Ropac also recalled that Supervisor Briggs and Clerk Ropac were two of the three on the election board which ruled that the candidates be listed separately as independent candidates.

"They are members of the party we are opposing. It would have seemed only proper for them to disqualify themselves and appoint an impartial board to rule on the objection to our petitions," the three candidates said.

In discussing the petition objection, they noted that Briggs testified under oath that he had presented the unsigned objection to the clerk on behalf of the objector, who later signed it. Thus, they linked him to the objection, the subsequent ruling against them running as a group, and then the ballot pattern widely dividing their names.

"The present officials have an obligation as public servants not to use their office to harass and confuse candidates and voters," Phelps, Hart and Ropac concluded.

"Elections should be based on open competition over valid issues. They should be conducted in a fair manner, and public office should not be used as an advantage."

Intelligence of voters if officials are implying that by printing ballots in this confusing manner they can prevent the public from finding our names. We are confident voters will find us on the ballot, and reply to the harassment by voting for us."

## Need Score Cards For Various Signs

You can't tell the players without a score card! And apparently some vandals need a score card to tell political candidates from real estate agents. Signs of each type were found Wednesday morning in the yard at 2833 Forest avenue. Police were called at 8:20 a.m. and the signs were taken to the station.

## Warriors Defeat Wood River, Staunton

ONE SAFE, ONE OUT. In left photo, Granite City's Gene Bryant scores on Larry Johnson's single in first inning while Wood River catcher, Jim Stassi, dives for wild throw from outfield. In right photo, the Warriors' Johnson is tagged out by Stassi on throw from rightfielder Chris Farrell who caught Charles Collins' fly ball in the fifth. The double play ended the inning.

## Pitchers Throw Pair of Shutouts; Triad Gains Tie with Second Unit

Early in the high school baseball season the pitchers are usually ahead of the hitters and the fielders make a lot of mistakes. Happily for the Granite City Warriors, their pitchers were further ahead and their fielders made fewer mistakes in the season inaugural.

The Warriors, after having their first seven games called off due to bad weather, opened with a 5-0 Southwestern Conference triumph over the Wood River Oilers Tuesday at chilly Wilson Park. It was a pleasant reversal of form — a year ago the Oilers' Terry Brown, the loser this time, spoiled the Tribe's first conference game with a two-hit shutout.

In non-conference games yesterday, the Warriors' front-line players downed the host Staunton Bulldogs 3-0 while the second unit played to a 4-4 tie with the Triad Knights at Wilson Park.

**Two-Hit Pitching**  
On Tuesday it was the Oilers who managed just two hits. Lead-off batter Darrell Evans got an infield safety off Doug Winfield, who threw the first four innings, and Brown doubled off non-up man Bruce Thompson in the sixth. All eight Granite City hits were off Brown.

Five of the GCHS starters were left-handed hitters and they accounted for six singles. Third baseman Greg Patton and rightfielder Gene Bryant each had two and first-sacker Larry Johnson and centerfielder Rick Whitwell one each. Catcher Joe Hauptman's double and Winfield's single were the righties' hits.

Johnson's solid knock to right drove in two runs in the first inning and Patton's liner to that field scored two more in the second as the Warriors struck quickly. Hauptman scored in the fifth on a bases-loaded error, one of four miscues by the Oilers.

No Wood River runner could get past second base in the third inning. Hauptman gunned down Evans and Chris Farrell, who

## Bridges Sets Mark But Redbirds Win

Two-time defending state champion Alton breezed to an 82-36 track and field victory over Granite City here yesterday afternoon. The Warriors, however, can boast one record-breaking performance.

Junior pole vaulter Dwan Bridges set a new outdoor record for GCHS by soaring 12 feet, six inches. That surpasses the old record, set by Tom Skubish in 1957, by one foot. Earlier Bridges had established the same height as the school's indoor record.

The Warriors' facilities are much improved this season, coach Jim Morrison said. There are new pits for the high jump, broad jump and pole vault and the track has been worked over and is in good shape.

Granite City had two other winners — Jerry Line, who hoisted the shot put 51 feet, 4 1/2 inches, and Larry Anderson, who won the high hurdles in 16.7 seconds.

Virg Kagnbarian, who had been developing as a fine quarter-miler, was sidelined for four to five weeks when he was spiked during last night's race. The Redbirds also won the junior varsity competition 97-26.

### Maxwell Used Briefly In Two Training Games

Pat Maxwell made brief appearances in two of the St. Louis Cardinals' three spring training games this week. He was highest in one trip to the plate, giving him 4-for-12 in the Grapefruit League season.

Yesterday he was used as a pinch-hitter for pitcher Ron Taylor, who sustained an elbow injury while scrambling back to second base in the seventh inning. The Cards, who lost the game 7-3 to the Los Angeles Dodgers, have a 7-11 record — worst in the National League.

## BOWLING WITH THE STARS

by Frank Clause AMF Staff of Champions

### Why Bowling Instruction?

Bowling has become the greatest participant sport of all time. Experts estimate that more than 39,000,000 people are enjoying the game today. This number includes men, women and youngsters of all ages. Yet, girl bowling centers across the nation are crowded with bowlers who are suffering from or mediocre scores for the lack of good fundamental bowling instruction. To these people bowling instruction has become increasingly more important and necessary.

It is through the distribution of instructional literature that the millions bowling today can receive help and advice from professionals.

Bowling instruction has always been a somewhat contro-

### Schedule Revisions For Soccer Tournaments

Schedule revisions for the boys' soccer tournaments this weekend at Coolidge Junior high school were announced today by Ruben Mendoza, YMCA Soccer League director.

In the Atom tourney, opponents of two local teams have dropped out, so St. Elizabeth's will meet the Gitchoff Reds at 11 a.m. Saturday. The rest of the schedule as announced before last weekend's postponements, remains the same.

In the Bantam tourney, there have also been two withdrawals. As a result, Buzz's will play St. Louis A. C. at 1 p.m. Sunday with the other two afternoon games to start a half-hour later than originally scheduled. There is no change in Saturday's schedule.

### Study School Tax Order

School Attorney Maurice Dailey is checking legal aspects of a court order refunding taxes to the Chain of Rocks Bridge and removing it from the property tax rolls. Loss of \$20,402 in 1960 school taxes and \$20,877 for 1961 is to be discussed by the school board April 12.

### GC Netters Top Wood River 5-0

Tennis started on a successful note for Granite City's Warriors Tuesday at Wilson Park where they whipped the Wood River Oilers in all five matches.

Coach Dick Harmon's team swept all 10 sets from the Southwestern Conference opponents. The Warriors met Alton here this afternoon.

**SINGLES** — Rusty Tabern GC defeated Rich Heinz 6-0, 6-0; Bob Mathis GC defeated Reid Sutton 6-2, 6-0; Jim Holland GC defeated Don Ram 6-1, 6-2.

**DOUBLES** — Drew Korandoff-Jerry Walters GC defeated Terry Eldridge-Bill Allen 6-0, 6-2; Bernie Helman-Alan Williams GC defeated Gary Harbeck-Marshall Collier 6-2, 6-2.

### Wood River Sops Down Ering Granite City 10-0

Wood River's sophomores spanked Granite City 10-0 in a five-inning baseball game Tuesday on the Oilers' field.

The young Warriors managed just one hit, a first-inning double by Paul Kacera, and made 10 errors — seven on throws. Coach Babe Champion saw one encouraging note: His pitchers, Ronnie Anderson and Mike Hoy, gave up only three walks.

### Girl, 15, Missing; May Be Enroute Here

Regina Adams, 15, daughter of Mr. and Mrs. Garland Adams, whose home at 622 Bend road was destroyed by fire Tuesday, is believed to be enroute to the Quad-Cities area from Edgar Springs, Mo., where she has been attending school for the past month. The girl was reported missing yesterday afternoon when she did not return on the school bus to the family's farm home near Edgar Springs.

When last seen yesterday morning, Regina was wearing a blue coat and white tennis shoes. She is five feet and seven inches tall, weighs 115 pounds and has medium-colored brown hair cut short.

Her father believes she was disturbed about the fire and may be enroute here to visit friends. Anyone seeing the missing girl is asked to contact her grandfather, Daniel Adams, at TR 6-1731.

### Meet on Urban League

Plans to consult with the St. Louis chapter of the Urban League on whether it could extend services to this area were made during a meeting Monday night at the Venice city hall. The committee, which will meet again in about two weeks, was formed at a meeting last month.

**Wrestling Tourney Winners**  
Winners of last week's intramural wrestling tournament, involving 207 boys at Central Junior high school, were announced today: Terry Avants; 100, Bill Nelson; 110, Tim Leonard; 120, Charles Campbell; 130, Bill Rutledge; 140, Frank Soriano; 150, Terry Avants; 160, Bill Nelson; and heavyweight, Dennis Holloway.

## Year-Round Plan For 'Y' Matmen

Granite City, home of the state high school co-champions, may have year-round wrestling under a program being developed by the YMCA.

Headed by four volunteer instructors—Jim Elwood, Skip MacMillan, Steve Cavanaugh and Bill Fuchs—the "Y" mat program is being expanded.

Purposes are to foster development of basic wrestling knowledge and skill in youngsters before they participate on school teams and to encourage participation of former high school and amateur wrestlers.

The four instructors combine in their records three second-place finishes in state prep tournaments, two NAIA national championships and three Illinois Athletic Conference titles. They have a total of 22 years of competitive wrestling experience.

Interested persons may contact Leonard Fuchs or Dan Smith of the YMCA staff for further information. Practices are: Juniors, 5-7 p.m. Tuesday; seniors 5-7 p.m. Thursday and 9-noon Saturday.

## GC, Belleville Loom As Strongest In Southwestern's Baseball Lineup

About this time last year, Coach Joe Fedora made an amazingly accurate prediction about the Southwestern Conference baseball race.

"I'd say a 5-3 record would be good enough for at least a share of the title," the Granite City high school pilot said then. What happened? Sure, Collinsville and Edwardsville shared a title, each with a 9-3 record.

Again this season Fedora sees a scramble for the championship with no one team running away with the prize. He has tabbed Belleville as the strongest of the six opposing teams.

Pick Dehnert, the East St. Louis coach, probably qualifies as the most neutral observer among the coaches because his Flyers don't figure to improve much on their last-place finish in 1964.

"I'd say Belleville and Granite City have to be the best two," he said. The Maroons haven't won a championship since 1962 and the Warriors' last was in 1953. Both, however, usually do well in the tournament; last season Belleville made it to the first round of the DuQuain sectional and GC to

went as far as the Staunton sectional final.

In 1964, the two teams tied with Alton for fourth place with 17-17 conference records. Wood River was third at 6-5 and East St. Louis at 2-9.

**Seasoned Pitchers**  
The Warriors have a pair of seasoned pitchers available in right-hander Doug Winfield and lefty Bill Evans. Winfield had a 5-0 record and a 0.64 earned run average in 32½ innings while Evans was 2-3 and had a 2.60 ERA in 37½ innings. The 1964 mainstay, Pat Harris who was 9-5 in 10 innings, has graduated.

Catcher Joe Hauptman, who led the team in hitting with a .329 average (28-for-85) and was second in run-batted-in with 17, is back. So is regular shortstop Larry Dillard who hit .271 (19-for-70). They gained additional experience last summer on American Legion and Inter-City League teams.

Captain Bryant, the team's second-best batter at .325 (13-for-40), is the other returning regular. Other lettermen back are outfielders Nick Petrillo (.344 in 32 at bats, not enough for lettermen status among the "regulars"), Rick Whitsett (.250) and Dan Meezy (.160).

The Warriors seem to have good depth in pitching with several promising prospects up from the highly successful sophomore squad. Fedora also feels the current club has more hitting potential than last year's team.

**Maroons Have Depth**  
A run-down on the other Southwestern teams:

**BELEVILLE**—Al "Boots" Badkes' Maroons had several underclassmen playing last year and, as a result, have good depth in 1965. Veteran pitchers are right-hander Tom Schlich (6-1 with a 2.44 ERA) and southpaw Tom Schmulbach (3-1 and 3.32). Also back is ace reliever Dave Groh, who didn't allow a run in 10½ innings.

Second baseman Mike Wagner led the team in hitting with a .365 mark including 27 hits in 74 attempts. Other top returnees are outfielders Bill Hattenhausen (.326) and Ron Stoeckel (.187), first baseman Perry Behnken (.250) and third sacker Steve Rohr, who played only briefly last spring but hit an amazing .314 in American Legion play during the summer.

**EDWARDSVILLE**—The Flyers, coached by Dick Hutton, also used a lot of juniors at key positions last year and boast depth in the ranks. Top returnees are right-hander Ron Daube and left-hander Dugie Kane, both 9-1 last season, and catcher

Wayne Holtman, a good power hitter. Bolstering the infield is second baseman Ken Burns, leading hitter last season. Burns has been switched from third due to arm trouble. Other likely infield starters are Larry Rank at first, Jim Walker at third and basketball star Randy Phelps, out for baseball for the first time, at short.

**Parker Kahoko's Hope**  
COLLINSVILLE—The Kahoko's hopes of finishing on top for the third straight season (they were champs with an 11-1 record in 1963) depend heavily on ace right-hander Harry Parker. In the regional final, Parker allowed Granite City only two hits but lost a 3-2 decision. Coach Don Davison has only three other lettermen back in third sacker Jack Darlington, shortstop Paul Smith and outfielder Gary Gibson.

**WOOD RIVER**—Like Collinsville, new coach Norris Dorsey will be leaning on one outstanding pitcher, right-hander Terry Brown. He hopes to get additional pitching strength from another lettermen guard, Mike Grimley. Other lettermen include Jim Stassi, switched from catcher to catcher, the first baseman Mike Compagno and shortstop Ron Link. Wood River was eliminated in last year's Edwardsville regional by Collinsville.

**ALTON**—Hard-throwing right-hander Tom Hand, 4-1 last season, is the only experienced pitcher back for the Redbirds. Barry Johns, who had been counted on for mound help, is scholastically ineligible. Hand is one of the nine lettermen available to coach Wayne Tyler. The others are catchers Randy Pace and Bill Conner, first baseman Dan Kennedy, second baseman Danny Dix, shortstop Gary Boyd and outfielders Jim Brown, Jim Yeager and Dave Joshi.

**EAST ST. LOUIS**—Dehnert has many a pitcher with any experience. His one lettermen hurler, junior Bobby Joe Sherrill, has transferred to Belleville and is on the Maroons' staff. Only 11 Flyers were awarded letters last season but six return. They are catcher Steve Rohr, first sacker John Watkins, infielders Perry Behnken and Glen Thompson and outfielders Paul Weber and Dave Docter. All but Weber and Thompson played regularly in 1964.

## Catcher for Blueboys

John Zerjal, Granite City, is listed as the second-line catcher on the Illinois College baseball team this season. The Blueboys open their season April 8 at 9-1 last season, and catcher

**STATE CHAMPION** of boys' junior bowling in Illinois is the Tri-Mar Bowl team of Granite City. From left are: Seated—Wayne Burris and Todd Skinner; standing—Larry Yoboy, Ron McBride and Larry Wolfe. They won the first state tourney with a handicap total of 3115.

**ILLINOIS RUNNER-UP** among girls' teams in the first statewide junior bowling tournament was the Tri-Mar Bowl quintet which totaled 3003 with handicap. From left are: Seated—Marsha Galloway and Sharon Koch; standing—Sue Carroll, Marcia Barnett and Mary Schuler. A Sterling-Rock Falls team won.

YOU FRIENDS OF LABOR AND GOOD CITIZENS OF OUR CITY WHO BELIEVE IN FAIRNESS, NO MATTER WHAT IS INVOLVED, LISTEN TO THIS:  
LAST SATURDAY I RECEIVED A LETTER FROM MR. G. H. STERNBERG AND NOTHING EXPLAINS THE SITUATION LIKE THIS LETTER:

**QUOTE:**  
Mr. Van Der Crue  
2406 Nameoki Road  
Granite City, Illinois  
Candidate Crues:  
I hereby challenge you to a public debate on the subject of your qualifications for the job of mayor of Granite City.  
The debate will be held at 3:00 p.m., Saturday, April 2, on radio station WGNJ.  
Five minutes will be allowed you to present the affirmative side.  
"Resolved, Van Der Crue is qualified by his experience for the job of Mayor of Granite City." I will have five minutes for the negative side. Then each of us will have two minutes for rebuttal.  
See you Saturday, April 2, at WGNJ, 3:00 p.m.  
G. H. STERNBERG

**HERE IS MY REPLY**  
Mr. G. H. Sternberg  
1400 Delmar Avenue  
Granite City, Illinois  
Dear Mr. Sternberg:  
I am in receipt of your letter of March 26, 1965. I regret that I must refuse and reject your challenge, for the following reasons:

1. Your invitation is an obvious campaign trick, weighted 100% in your favor.
2. There is absolutely no thought given to honest discussion.
3. Any debate should include time for discussing your qualifications as well as mine.
4. Your dictatorial attitude in setting time and topic, without thought for other persons, is reprehensible.
5. Your basic motives are questionable and not one thought given to the community contact.

I am sorry that you felt you had to resort to tactics of this kind. Your purpose is to get ahead on a deceptive campaign by being hit on the head with a log. We both realize that the so-called debate invites a flat refusal, thereby putting you in the position of declining victory by default.  
Since I must defend myself, and your actions forced this, I am enclosing a copy of my invitation to both the Granite City Press-Record and radio station WGNJ along with copies of this reply.  
Respectfully,  
VON DEE CRUSE

**WHY DID I ANSWER AS I DID**  
1. Because Mr. Sternberg has limited this discussion to my qualifications and we all know that a fair debate should include a discussion of HIS qualifications.  
2. WGNJ has been black-listed by Organized Labor for some time and I have done no advertising on WGNJ for this reason — he knows this —

**NOW—LET'S TALK TURKEY**  
Organized Labor has been laughed at and ignored completely. Labor has strike power and uses a black-list to boycott firms unfair to labor. Mr. Sternberg and other candidates have spent great sums of money at WGNJ, advertising in this campaign.

This is why I have not and will not appear with Mr. Sternberg or any other candidate at WGNJ.

**WOULD YOU LIKE TO WORK FOR THIS MAN**

**DO YOU CONSIDER THIS FAIR PLAY**

**WOULD ANYONE OF YOU DEBATE ONLY YOUR QUALIFICATIONS**

I thank him for assuming that I am the candidate to beat. I hope he is gentleman enough to stick to constructive ideas and programs. Evidently he feels that his ability and platform is not enough for you to make a fair decision on April 6.

He has forced a public explanation. I leave it to you.  
VON DEE CRUSE

## JUST PLAIN TALK by Von Dee Cruse

THE PEOPLE'S CANDIDATE FOR MAYOR

I WANT TO BE YOUR MAYOR!  
I WANT TO WIN THIS ELECTION!  
I WANT TO REPRESENT EACH AND EVERYONE OF YOU!

I have no machine. But a group of fine people, who believe in me and who have worked hard in my behalf.

I have made one promise, and only one, "to fairly represent every citizen in my city."

I have pledged full-time leadership and full-time effort to pull our city to the peak of its potential.

I have proposed a complete program for action now. Based on good planning by dedicated citizens.

I have promised reforms where reforms are needed. I have been constructive in thought and deed. Surely this is what our city needs.

Stop now and think as you have never thought before. Have you had your fill of name calling and personalities that have become more important than city business. Do you want leadership that is small in thought, vindictive in purpose.

I think it is time we pulled the city out into the sunlight where it can be cleansed with honest purpose, clear and sensible thinking and good old common sense planning.

Be honest and look into your hearts. We all love our "old home town" because it is filled with good people, good friends and it's always been a working city.

Most of us would love it even more if we could clean it up, make it sparkle and be pleasant to the eye. We can do anything we set out to do.

### LET'S SET OUR GOALS HIGH

I promise that on April 7, 1965, if you have seen fit to support me on April 6, 1965, the personalities will be forgotten, the debris of election will sweep out and I will start working for you.

I'll have a program for improving every section of the city because it benefits the city as a whole.

I'll give you leadership based on constructive thought and ideas.

Our city will gain in respect and strength through honest purpose and deed.

### LET'S GET MOVING

This is an appeal for your support. I promise each and every one of you, that I will faithfully serve you and your best interest. No outside influences or loyalties will divert my thought from you, the people of our city.

YOUR FRIEND VON DEE CRUSE

### Bomb Disposal Program For GC, Madison Rotary

Madison and Granite City Rotarians met jointly for a luncheon yesterday at the Madison recreation center, hearing an address on bomb disposal activities by First Lieut. Allen K. Rosson, commanding officer of the 50th Ordnance Detachment at the Granite City Army Depot. Rocket, mortar, fire bomb, armor-piercing and tear gas devices were displayed and discussed. It was related that during the past month the local bomb squad has assisted law enforcement authorities in this region by removing 95 sticks of dynamite, two hand grenades, two rockets and quantities of tear gas from various locations. ## Chouteau Twp. Budget Approved at Hearing

No changes were made in a Chouteau township budget totaling \$45,485 during a public hearing Tuesday which was attended only by township officials.

The budget will be up for final adoption at the annual town meeting in the township office on Old Alton road at 2 p.m. Tuesday, the same day as the township election.

The budget includes \$20,330 for the town fund and \$25,155 for the relief fund. The budget was reduced by \$12,000 because of a large balance, according to Joseph Troeckler, township supervisor.

The balance was maintained as relief expenses were held to a minimum, Troeckler said, adding that persons who were eligible for state public welfare were referred to the county and excluded from township relief rolls. Because of the balance and cut, Ed Midgett and Elaine Roush.

The new tax levy would include \$19,950 for the town fund and \$12,000 for the relief fund.

## Write-In Candidate To Oppose Rutledge

William J. Harrison, 730 Twenty-seventh place, has become a late write-in candidate for alderman of the Fourth Ward to oppose incumbent Paul Rutledge, who is unopposed in the ballot.

Harrison said he agreed to run for the office because Rutledge was unopposed and that various residents of his section, especially those in his section of North Granite, had asked him to do so.

He also said that he did not receive any candidate should be a "write-in" and his running should provide a "spirit of competition" in the ward election.

Harrison, 37, is a switchman for the CB&Q railroad. He previously served as a precinct committeeman in Nanooki, Illinois, prior to the annexation of North Granite to Granite City. He is a veteran of the Korean War and is a member of the Veterans of Foreign Wars.

He was born in Lake Worth, Fla., and he and his wife Katherine have three sons and a daughter.

## Page Cites Progress, Backs Cites Aid Boost

Quid-City area school officials and the Chamber of Commerce committee were represented at a dinner meeting Tuesday night in Belleville at which State Sup. Ray Page advocated increased state school aid and cited four accomplishments—establishment of adult education for public aid recipients, upgrading of state services, utilization of new federal aid, and emphasis on aiding pupils in agriculturally comparing American and Communist systems.

Page urged compliance with the new Illinois school fire safety code and said six regional architects will be provided by the state to aid in evaluating remodeling projects proposed by architects hired by school districts.

### REMEMBER the bitter 3 month strike at The Dow

Metal Products Co. in 1963?

RICHARD FRY, candidate for Alderman in the 6th Ward crossed our picket lines to enter the brick plant.

This is NOT the kind of representation the voters in the 6th Ward are entitled to have. We urge YOU to DEFEAT RICHARD FRY when you go to the polls on April 6th.

This ad was paid for by voluntary contributions from members of Local Union 4804, United Steel Workers of America.

At a meeting of our Executive Board on Friday, February 26, 1965, we considered your name as a candidate for the office of Mayor of Granite City.

After discussing your record on a union man and public servant, it is our pleasure to extend our endorsement to you, and to your campaign for the office of Mayor of Granite City, Illinois.

tion. No one spoke up, so the vote was taken and it was unanimous. Jack Green (back) voted for the Laborers' Local, even asked if there were any more recommendations. Reiske added, "and there were none."  
**Unions Were Notified**  
Reiske said all member locals of the Trades Council had been notified of March 17 meeting and that endorsement recommendations would be submitted. "The council's action was taken legally and we can't help it if the locals are lax in attending."  
He explained the Trades Council's action is to be binding, but that individual locals could follow their own course of action.

Mayor candidate Patrick said he appeared before the Trades Council at its March 3 meeting along with other mayor candidates, and that before their entry into the meeting hall, he asked for Jack Green went in and "plastered the walls with signs for Don De Cruse" signs. Patrick said he voiced his objections, but the signs remained.

## Big Mortgage Planned By GC Steel Co.

A mortgage of Granite City Steel Co. property to aid in financing its \$140,000,000 expansion-modernization program is to be presented to shareholders during an annual meeting to be held May 11 at the main offices here.

Last December, the company issued \$30,000,000 of convertible debentures and is to follow through with a proposal to borrow up to \$30,000,000 from three insurance companies. It previously borrowed \$48,000,000 from the companies and the mortgage would be to secure loans up to \$103,000,000. If stockholders do not approve, the company expected to reconsider its plan for financing the program.

## VALID REASON TO AVOID PART-TIME LEADERSHIP

To the Editor:

There is a reason for demanding a full-time mayor and not just like the one we have had for 18 years.

One candidate admits that he intends to keep his business, and no matter what is said, this is not satisfactory. Part-time leadership is not enough to prevent another time disgrace.

Another candidate is going to turn his business over to his son. Remember, the present mayor had a relative run his business. The only problem with this arrangement is that every time the business has problems, the city was neglected. What guarantee do we have that we won't run into this problem again?

Both of these candidates could be on the spot when they are dealing with industry. They both do work for local industry. They could be put in difficult positions if industry put pressure on them.

The people should think twice before they vote for part-time leadership.

## TIME FOR A CHANGE

CHARGES ONE-MAN RULE

To the Editor:

I am a resident of Madison, have been for 15 years and hope to be for many more years. I have bought and read your paper for 25 years and have noticed that I sold the Press-Record. Now I am asking you for some consideration and help.

We are having an election for mayor. The fear in Madison is getting out of hand. It is common to hear people say, "aren't you afraid to do that?" or "I can't do that because I don't want to get involved." They speak of Steve Maestas as if he were someone whom they should obey without question.

I think the Press-Record should take a stand against one man rule. I say one man because most of the aldermen and city officials are just "yes men" who hold true of the police department and schools.

## MADISON RESIDENT

## ALDERMAN CANNOT IGNORE PAST INACTION BY CITY

To the Editor:

One of the mayor candidates has been an alderman for 18 years. Has it been a record of council achievement and progress?

Mr. Partney has decided that this city had put him in a bad position. He has signs saying, "Get rid of traffic congestion." Why, after 18 years of inaction, is he now saying that all will be different if we elect him as our leader?

Sure, he wasn't mayor. But do you have to be mayor before you can get out of bed and propose improvements and plans for the city? Any alderman can present a program. Where has he been for 18 years?

His weapon has a slogan that says, "This is not a city with a buggy town now." This is true, but we have grown despite ineffective leadership. It is because of effective leadership.

## Registration Due Now For ACT Battery Tests

Saturday is the final date for area high school seniors and juniors to register for the April 24 test session of the American College Testing program. Students may obtain ACT registration forms and instructions from their high school offices. Testing centers will include the Alton and East St. Louis branches of Southwestern Illinois University and Edwardsville high school.

Most colleges require or recommend that their prospective students take the ACT battery. Based upon results of the battery, ACT sends a record for each student to the college of his choice.

These records are used in placement, admissions, academic and vocational counseling, selection of scholarship and loan recipients and in planning other large-scale student programs. ACT also sends "feedback" reports to the student and his high school counselor, showing how he compares on the basis of scores with high school seniors and college-bound students across the country.

The battery consists of a student information section, the "student profile" and one test in each of four subject areas—English, mathematics, social studies and natural science. Juniors may register instead for later June or August testing sessions and would not be required to repeat the tests in their senior year as adjustments are made in scoring for them.

The Morris Library at Southern Illinois University has a collection of about 300 prints of famous paintings and etchings which may be borrowed (the same as books).

## State Traffic Division Eliminates Backlog

Secretary of State Paul Powell announced today that a backlog of unprocessed conviction reports for traffic law violations, which had built up last year as the result of the new Judicial Article, has been eliminated, despite that reports are being received in steadily increasing numbers.

The Driver's License Division is now operating on a day-to-day basis, processing all conviction reports on the day they are received. Powell said. At one point last year, the backlog amounted to 45,000, he added. It was anticipated that there would be an increase in the number of reports submitted by the courts when the new Judicial Article became effective Jan. 1, 1964, and before procedures were completed to handle the increase, Powell said.

In 1964, the number of conviction reports submitted by the courts throughout the state rose to 1,346,260, an increase of 161,422 over 1963. So far this year, the total is 272,057, an increase of 28,619 over the first three-month period of 1964, Powell reports.

## Bulk Mailers to Meet ZIP Order Within Deadline

Representatives of the publishing and mail advertising industries have pledged their cooperation and support in fully pre-sorting their mailings by ZIP code as early as humanly possible, before Jan. 1, 1967, according to announcement of Postmaster General John A. Gronouski.

The announcement followed a meeting at the Post Office department of the Mailers' Technical Advisory Committee, consisting of representatives of all the major second and third class bulk mailing industry associations and organizations.

The Postmaster General agreed at the meeting to eliminate a preliminary deadline of July 1, this year which would have required mailers in these categories to sack to sectional centers some of the mail now massed to state distribution points.

Gronouski dispensed with the earlier deadline on recommendation of the committee which called to his attention some technical problems in the industry that would have made it difficult to meet the deadline.

He said he had read a great many "thoughtful and constructive" comments since the proposed regulations were published in the Federal Register, pointing out the July 1 deadline would tend to impede rather than accelerate complete adaptation to ZIP Code by January of 1967.

"I am completely and unalterably committed to the Jan. 1, 1967 date," Gronouski said. "But I am also convinced that with the voluntary cooperation of business mailers we can accomplish even more within the first year in terms of compliance with the regulation."

"There has been little respect for city government; little confidence in city officials' word; little or no paper work in the executive office; no incentive aside of taxation for entering incoming industries; no efficient handling of the city's budget and financial policies nor adding by the statutory provisions set down by law; no parliamentary rules of procedure by which the city might be guided to avoid discussion, discussion, disorder. She was assistant executive secretary for the St. Louis and St. Louis County Chapter for Infants Paralysis and was formerly an agent for Consolidated American Life Insurance Co.

She is Granite City's first alderwoman and named in the World's Who's Who in Commerce and Industry 1964-65 and Who's Who of American Women 1963-64. She is on the library board of trustees and was a United Fund and Red Cross member. She has served actively on city council committees and is chairman of the city's Commission on Prevention of Obscene Literature.

Mrs. Betinec was secretary of the Divine Providence Family Guild and is a member of the Business & Professional Women's Club, serving as its board member, vice-president and parliamentarian. lowest, immediate and long-term cost."

"I not only favor acceleration of efforts but would request immediate action by the State Highway Department on right-of-way problems in our city. The value of some properties has depreciated drastically since the approximate right-of-way was announced several years ago."

"I pledge that Namekoi road will be completed in 1963. I also pledge that street improvements and maintenance would not only become more orderly but would be done on a priority basis, due to planning by the Plan Commission."

"I favor expansion by the following means. The most important and longest neglected group in our city is the Plan Commission. This committee would immediately be elevated to the highest position of importance, except for the city council, in the city and the full weight of the mayor's office would be extended to this group so that they, as a representative cross-section of the population, could formulate city policies concerning annexation and municipal services in the city. This would be to the benefit of legal council and any other assistance they need to become the focal point in the city for all improvements for present and long term needs. This commission, if given the opportunity, can be largely responsible for improving our city beyond our present hopes and any other that serves on the council."

"I do not favor continuing with the present engineering service in any way, shape or form. I feel we can do better. We should have a more formal than normal standard fees for the best engineering service available. I would like to see a city engineer but a complete estimate of costs would have to be made before we could agree to solve our problem. He is a high school graduate and member of the Suburban Baptist Church. In seeking the two-year term as Sixth Ward alderman, Williams hopes to attain public office for the first time.

"I feel our district needs a change," he said, "any job or office can get into a rut. It is time for new blood, new ideas and new thinking."

Williams gave no answers to the questions stating: "I shall make no promises. I am not affiliated with anyone in office now or anyone running for office now."

PATRICK MALCOR

Patrick G. Malcor, 35, of 2845 Washington avenue, is seeking the two-year term as Sixth Ward alderman. The foreman at Granite City Steel Co. and his wife have two daughters.

He is a high school graduate and attended one year at Southern Illinois University. Memberships include the National Management Association and formerly the Toastmasters Club.

"We are not developing consistent to our rate of growth," he said. "Major developments must be forced on 45 years past the critical point—street widening, air pollution, sewage disposal, fluoridized drinking water, equalized ward boundaries, ensuring uniform representation. Younger people and ideas are needed in city government to keep pace."

1. "Yes! As with any well-run business."
2. "I favor the fixed expense. It encourages frugality."
3. "Yes! One voice, one vote!"
4. "Yes! This is a condition that should have been remedied long ago."
5. "For now, yes. However, I feel we are still treating the effect rather than the cause. Let us hope someone doesn't get mad at our police and fire department!"
6. "I insist on it!"

# IF THIS IS THE WAY YOU LIKE YOUR CITY GOVERNMENT.... DON'T READ ANY FURTHER!

IF YOU THINK IT'S TIME FOR A CHANGE, THIS IS MY POSITION!  
AS A CANDIDATE, THIS IS WHAT I BELIEVE IN... AS A MAYOR, THIS IS WHAT I WOULD DO ...

Each citizen of our community has a right and a duty to expect, receive, and work for clean, efficient, and Progressive City Government. You, the people, are the real machine — you have the right and power to vote and elect. When you don't care, when you sell your vote to the highest bidder, when you refuse to consider qualifications, OR REFUSE TO TAKE A FEW

MINUTES OUT OF YOUR DAY TO CAST YOUR VOTE — the party machine, consisting of a small group of well-organized, self-interested, unconcerned politicians becomes a formidable power. DON'T MOAN AND GROAN about your city's poor condition and bad government IF YOU DON'T VOTE. You receive from the city government what you put into it.

## 1. EQUALIZATION OF THE TAX BURDEN!

For many years heavy industry and business HAVE NOT carried their full share of the tax burden. This burden has fallen on the individual property owner—hence, our high property taxes—the highest in the St. Louis Metropolitan Area in relation to evaluated property value. Taxes are a necessity for the operation of government. Industry and business must carry their full share. This in turn would lead to a reduction in the individual real property tax.

## 2. ESTABLISHMENT AND OPERATION OF A PROGRAM FOR CONCRETE STREETS, SIDEWALKS, AND CURBS.

Many areas of our city lack these items altogether or have them only in part. Your tax dollar is supposed to provide for them, and in many instances they were promised to you. Where are they? The higher the property taxes are in an area the least number of these items are present, and if present, they are in deplorable condition. A full scale street improvement project must be developed and put into operation immediately—a crash program—not a program for 3 years from now, or 8 years, or 25 years, but immediately. The asphalt streets which are but a waste of the taxpayers money and a golden-egg to the political campaign funds would be replaced by concrete streets so that for many years to come they would not have to be replaced or "resurfaced".

## 3. ENFORCEMENT OF THE ANTI-POLLUTION LAW.

Every industry in the city and surrounding area owes not only an obligation to its stockholders but also an obligation to the community. The anti-pollution laws are a minimum standard of conduct which industry is required to follow in order to protect the health and property of the citizens of the community. The anti-pollution laws were enacted for the purpose of being enforced, not yawned at and by-passed. Recently, the steel companies in Chicago, responsible for 40% of Chicago's air pollution voluntarily agreed to put in expensive anti-pollution devices to fulfill their obligation to the community of Chicago. Our heavy industry is responsible for over 75% of our air pollution. Since they have failed to voluntarily meet their obligation to our community, the law must be invoked for the benefit and protection of the entire community. Not next year, but this year!

## 4. ESTABLISHMENT OF A MAJOR STREET PROGRAM DESIGNED TO MOVE TRAFFIC FROM ONE END OF THE CITY TO THE OTHER QUICKLY AND EFFICIENTLY.

Our city is in need of a complete traffic flow overhaul. Major through streets with a minimum of stops are needed to speed traffic in safety and number from one section of the city to the other. Strict police enforcement would be a must so that all traffic regulations would be obeyed. Side streets would be used only for local traffic and limited in speeds to 20 M.P.H., since major through streets would be only a few blocks in either direction. Large trucks would be limited to only certain streets, and these streets would be widened and reinforced to withstand their weight. The other through streets would also be widened to allow lanes going in both directions. All city lights would be timed, and the least possible use of stop signs would be encouraged. The stop sign epidemic which we are now going through only breeds contempt of traffic regulations and creates the condition known as the "Rolling Stop" common in St. Louis. Our street distribution system needs modernization for today's conditions.

It is for you to decide, by voting, who is to represent you and your city in the office of Mayor. If you don't consider the lack of past performance, you're the one who will lose in the end. If you don't vote for a change, the type of government you have now will continue.

If you want improved government in the city, I need your vote.

## 5. ELIMINATION OF THE SPECIAL TAX.

I have never believed in double taxation, especially when no one knows how long it is supposed to last. This tax to pay for the "gold-plated" sewer line in the newer parts of the city is purely and simply double taxation. The sewer tax is a part of the real property tax and each citizen pays it. There is no valid reason for a separate additional tax for sewers. The sewer tax which is part of the real property tax is to pay for the building and maintenance of the sewers throughout the city. This unfair and burdensome tax must be immediately eliminated.

## 6. CONSTRUCTION OF UNDERPASSES AND OVERPASSES AT 6 MAJOR RAILROAD CROSSINGS.

These underpasses and overpasses at the railroad crossings on Pontoon Road near the Nameoki Road intersection, on Highway 162 or Edwardsville Road near the 19th Street intersection, on State Street near the 16th Street intersection, on Madison Ave. near the 16th Street intersection, on Niedringhaus Ave. near American Steel, and on 20th Street near Union Star are sorely needed. No one in this City has missed the frustration and delay caused by waiting for the railroad or industrial plant trains to pass over the tracks or switch tracks, whichever it is, they manage to block the crossing for an extended period of time. The railroads and the plants which use these tracks should, in conjunction with the city, finance the planning and building of these underpasses and overpasses.

## 7. ESTABLISHMENT OF AN INDUSTRIAL COMMISSION.

The life blood of this community is heavy industry. Without it we do not prosper. It is of interest to labor, business, and the city that our heavy industry be able to compete and even out-bid industries located in other areas. This commission's primary task would be two-fold. First—to work with the city in planning and providing transportation facilities from its gates to the transportation network, be it superhighways, water, rail, or air. It is the job of the city to provide this, and as other cities have shown, it can be done at no cost to the city and with great savings to industry. This would involve special truck roads, possible canals, etc. This saving in time cost and method of putting the article into the interstate transportation system would allow our industry to compete on better terms in the market. Better competition leads to more jobs in our industrial plants.

Second—It would attempt to attract new industry and jobs to the area. We have much to offer in our city to new industry: a complete choice of different and available transportation systems for interstate shipment, a diversified and near-by source of basic materials, and an organization which would aid them solve any difficulties. With such potential for cutting cost and a large available market in the Metropolitan area, no industry could refuse. Such lack of foresight has cost us two Chrysler plants in the recent past—first the auto assembly plant now located in Fenton, Mo., and now the parts division plant to be located in Cincinnati, Ohio. There would be no tax relief given to these new industries. The new industries would be required to pay their fair share of the tax burden from the beginning. Such industrial development would help lower the property taxes throughout the city for the average taxpayer by broadening the tax base.

## 8. EXPERIENCE IN ELECTIVE OFFICE IS NOT A QUALIFICATION IN THIS ELECTION!

Normally, I would agree that past experience should be the yardstick. This is not one of those frequent times. Four of the candidates have served on the city council for several terms each. The record of the city council and the candidates own individual performance is so poor that I would say such experience is a liability rather than an asset. None of these four candidates for Mayor have shown leadership, imagination, or serious concern over the city's plight while sitting on the council. How do they expect to aid the city and provide the necessary leadership as Mayor?

The remaining candidate has been the city's tax assessor for 8 years. His record speaks for him. Property taxes in the last 8 years have doubled and in some places quadrupled or more. Meanwhile, the taxes paid by heavy industry and business have remained the same or have actually decreased! In providing the city tax money to operate on, he has placed the interest of industry and business above the individual property owner's interest. What would he do as Mayor?

If this is the experience that qualifies one for the Office of Mayor, all I can say is—I'm glad I don't have any!

## Annual Easter Seal Sale Campaign Set April 9-12

Neal Sackett, six-year-old son of Mr. and Mrs. Udell Sackett of near Edwardsville, has been chosen the Easter Seal Child for 1965 to help publicize the annual Easter Seal sale during the county wide campaign, April 9 through 12. The 1965 Madison county quota is \$25,000.

Neal is a cerebral palsy victim who attended classes at the Edwardsville Easter Seal Center every Monday, Tuesday and Wednesday morning. He has been enrolled in the kindergarten preparatory program there since last September.

He attended an open house at the Society's Alton treatment center and will make other public appearances to help community campaign leaders promote the sale of Easter Seals.

Easter Seal funds provide physician and speech therapy for persons suffering a variety of crippling conditions, classroom teaching for young patients who are unable to attend regular school classes, therapy aids, equipment, transportation, special testing and supplies used in treatment of patients.

Easter Seal funds also help maintain three centers in Madison county at Venice, Alton and Edwardsville, in which the services are given, and finance the administration of an extensive program of both direct and indirect services. The latter includes educational help to parents and public education.

## Debate Debated But Apparently Will Not Occur

Exchange of comments between two Granite City mayor candidates continued this week as each sought to clarify his position regarding a debate, which apparently will not take place.

G. H. Sternberg proposed a radio debate on "Resolved, Von Dee Cruse is qualified by his experience for the job of mayor." He purchased the time and suggested five minutes for the affirmative by Cruse, five minutes negative by himself and then two minutes each for rebuttals. "Any debate should include time for discussing your qualifications as well as mine," Cruse replied. Alleging "dictatorial attitude in setting time and topic without thought to other than your own interest," Cruse said your purpose is obvious. "We both realize that the so-called debate invites a flat refusal, thereby putting you in the position of claiming victory by default."

Sternberg said the invitation had been misunderstood and "was not a campaign trick. Rather, it was a campaign device to present a candidate, discussing his strengths, to the voters. A debate, by definition, is not a discussion. The rebuttal period is allowed each contestant to give him a chance to answer some of his opponent's statements."

"I would be most happy to engage in a public debate with you on my qualifications if you will provide the air time as I offered to do for you," Sternberg continued. "Rules would be exactly the same as previously set out. After this letter of clarification, I hope you will see fit to engage in a debate, on your qualifications or mine, in the interests of improved government in Granite City."

Cruse said the way the debate plan was initially presented and publicized lacked "fair play" and is typical of tactics which he feels would be detrimental in the office of mayor. He said he would not appear on a radio station described as unfair to labor. Sternberg commented, "It's unfortunate that Cruse is using every device possible to protect himself from the questions of the voters. I'm sorry that the debate couldn't be arranged. I'll use the previously paid-for time in an open discussion of candidate qualifications."

Stay on the level—people who try to hit the high places usually land in the dump. Cut your speed, motorists—the turnover is always more costly than the upkeep. Life is like that—while one hurries to get ahead, ten people hurry to catch up.

## Census Bureau Starts Home Repair Survey

A sample survey of residential alterations and repairs covering the first quarter of 1965 will be made among selected families in this area starting today, according to Director Theodore E. Olson of the Bureau of the Census regional office in Chicago.

The survey will require about two weeks to complete and is part of a national study involving about 8000 home owners throughout the nation. The data collected provide a statistical picture of the importance of home alterations and repairs in the U.S. economy. As government programs and policy expand the aids available for improving and conserving existing homes, the information collected in this Census survey will also become increasingly valuable for urban renewal.

It is now estimated that Americans spend \$1.1 to \$12 billion annually for alterations and repairs to their homes. More than one million homes are re-roofed each year and nearly two million water heaters are replaced annually, for example. The survey will cover papering, painting and plastering, plumbing repairs, central air conditioning, exterior wall and roof work, repairs to the heating plant, electrical work and

## Son Born to Former Granite Cityan

A son weighing eight pounds, nine ounces, was born March 24 to Aviation Electronic Technician First Class Frank J. Battreall Jr., U.S. Navy, and Mrs. Battreall, at Tripler Army Medical Center, Honolulu, Hawaii. The infant has been named James Brian. He is the fourth child for the Battrealls who are residing in Waiapahu, Hawaii.

miscellaneous carpentry. The extent of the work as well as expenditures will be determined. Although the survey has been conducted for a number of years, new procedures designed to save taxpayers' dollars are being introduced this spring. Instead of making personal visits for information in all cases, the Bureau of the Census interviewers are mailing notices to people who were contacted in January, and will telephone to obtain the information. Substantial economies may result if telephone cooperation proves good.

All information furnished to the Census Bureau is held in strict confidence as prescribed by federal law. Census data cannot be used for investigation, taxation or regulation. Individuals and households taking part in Bureau surveys or censuses cannot be identified in any way in census reports. Results of such surveys can be used for statistical purposes only.

## Part-Time Job Opportunities As State Claims Examiners

Men and women to be trained as intermittent claims examiners for part-time work with the Granite City Unemployment Compensation office, or in similar offices in downstate Illinois, may obtain an application form at the local office, 2030 Iowa street, it was announced today by Malcolm A. Thompson, manager. He added that the completed forms must be filed by April 14 with the Illinois Department of Personnel, 508 Centennial bldg., Springfield.

Those accepted for training will work a minimum of four hours a day for two or more days a week, excluding Saturday and Sunday. Thompson said, pay rate is \$2.05 per hour and work hours will be between 8 a.m. and 4:30 p.m.

Thompson pointed out that

## Deadline April 15 For Tax Estimates

Internal Revenue District Director Jay G. Philpott today reminded taxpayers whose federal income-tax liability is not substantially covered by withholding that April 15 is the deadline for filing Declarations of Estimated Tax for 1965.

He said those who may wish to refer to the new 1965 tax rates published in the Internal Revenue Manual, Publication No. 465, reflect the second step of the tax reduction voted by Congress last year.

Director Philpott cautioned that the 1965 rate tables are not applicable to 1964 income on which (that) returns also are due on or before April 15.

## X-Ray Unit to Make Final Public Survey

The Madison County Tuberculosis Association's mobile x-ray unit will take free chest x-rays Saturday at the Dairy Master in the 500 block of Madison avenue in Madison. The unit will operate for the public from 9:30 a.m. until 1 p.m. and from 2 p.m. until 5 p.m.

It will be the last immediate appearance of the unit in its month-long survey that began early in March, although it is scheduled to return to Granite City the middle of April to take x-rays at Granite City Steel Co. over a three-day period. A schedule is to be announced later.

The x-ray unit has made appearances at major industrial plants and at the Granite City and Venice city halls in a survey to locate possible cases of the disease.

## Records System Aids In Filing Income Tax

"Have you been reading and hearing about ways to save on your taxes? If you have, you know an essential step to tax savings is complete tax records. These records do not have to be fancy, just complete, accurate, and current. In many cases, the simpler, the better," according to Jay G. Philpott, district director of Internal Revenue.

He said that one of the easier ways to "set up a bookkeeping system" is to get a supply of large envelopes or folders. Label them according to the types of income and deductions you have. Accumulate the information as you go along. Preparation of the tax return will be much easier, with less chance of overlooking any income or deductions, when this is done.

Philpott asked taxpayers not to mail their records with the return. If the return is selected for audit, the taxpayer will need the records to back up the items shown on the return.

Philpott pointed out that good tax records are vitally important to taxpayers who have travel and entertainment expense, itemize deductions, have income other than wages, operate businesses, or who have sold property or investments.

## Venice Twp. Budget Okayed at Hearing

A 1965 budget totaling \$192,250 for Venice township was approved Tuesday night in a public hearing attended only by a small group of town officials. The budget was unchanged from tentative figures announced early in March when the ordinance was posted for public inspection. The new budget is \$995 less than the 1964 appropriation of \$202,250. It will be given final approval at the annual town meeting to be held at 2 p.m. Tuesday, April 6, at the Venice town hall.

The new appropriation set up by the town board provides \$305,143 for the town fund; \$7543 over last year; a total of \$110,100 in the general assistance fund, down \$17,500 from last year; a total of \$24,200 in the road and bridge fund, down \$200 from last year; and \$7310 in the municipal retirement fund, up \$1960 from last year.

The annual town meeting date of April 6, which is the same day as township elections throughout the area, is set by statute. The budget is approved by a public gathering and residents of the township may appear to seek changes in the bill and to vote on its approval or rejection.

## Dismissal Sought in \$3 Million Libel Suit

A motion for dismissal of a \$3 million libel suit filed by members of the Madison county zoning board of appeals has been entered into circuit court by the Madison County Taxpayers Association, William Stutz of Foster township, its president, and Don Urban of Collinsville, a member.

The libel complaint was filed Feb. 10 by the zoning board, claiming that each of the plaintiffs is a public officer. The alleged libels constituted contempt, upon and criticism of their actions and conduct as public officers and such comment and criticism cannot constitute actionable libel by reason of the provisions of the First and 14th amendments to the Constitution of the United States.

The attorney for Stutz, Urban and the association filed a recent U. S. Supreme Court decision and claimed that an attack on a governmental bureau cannot be translated into an attack on its personnel for the purpose of a defamation suit, and that statements referred to by zoning board members are not libelous.

## Whitmer Denounces Last Minute Rumor

Samuel Whitmer, Second Ward alderman and candidate for Granite City mayor, denied Tuesday that he was dropping out of the mayor race. "I wish to stop any rumors which might be started that I am dropping out of the race for mayor in favor of another candidate."

"I have been approached this week to make this move as a 'last minute surprise.' I am not in this campaign to play politics. I am in it all the way, and am genuinely sincere in my previous statements about rolling up my sleeves and getting our city on

the road to progress," Whitmer told the Press-Record.

Corporation Chartered Illinois Secretary of State Paul Powell has issued a foreign corporation charter to Reimund Allen, Inc., Ohio, of 2720 State street, Granite City. Alfred C. Stoeber, Granite City, is registered agent in Illinois. R. E. Reimund, Westerville, O., is president and Dale Mowen, Columbus, O., is secretary. The firm is authorized to construct surface water intake pumping stations and radial water collectors, and to perform related heavy construction work for industry and municipalities.

## Chouteau Candidates Urge Police Service

A joint statement issued this week in Chouteau township by Duane C. P. DeCota, supervisor candidate, and Robert E. Crider, tax collector candidate, pledged efforts to obtain police protection and to "eliminate narcotics peddling, sale of liquor to minors, and taverns operating after closing hours."

"They said they propose to work with local organizations in an attempt to provide better programs for children," and to seek a building in a central location for the relief office, tax collection and storage of township equipment. "This will eliminate payment of rent to several individuals for use of private property."

The candidates also reported they would be "available for criticism as well as suggestions from the public," and would seek passage of "a resolution so that township clerk hours will be set and notice made available to the public, eliminating unnecessary court costs" such as those encountered by DeCota in seeking listing on the ballot.

Discussing an opposition circular referring to "other political commitments," Crider said he does not regard his service on the non-salaried Granite City community school board as political.

## Frank's Card Shop to Occupy New Quarters

Skott's Jewelry and Frank's Card Shop which has been operating at 1925 Edison avenue since shortly after a \$350,000 business district fire destroyed the previous store at 1314 Niedringhaus avenue last Nov. 24, will move into new quarters at 1304 Niedringhaus avenue during the weekend. Frank Res, operator of the shop, said he hopes to open for business in the new location on Monday.

The card shop's new location at 1304 Niedringhaus has been occupied the last three years by

the Kaelgel Real Estate and Insurance Agency, Inc., which is moving Friday to 1367 Niedringhaus, next door to Miller's Drug Store.

The card shop was burned out of its earlier Niedringhaus avenue location by the fire that destroyed the J & R Motor Co. store, the card shop and Simpson's restaurant on the early morning of Nov. 24. A new one-story building is to be constructed for J & R and a restaurant.

## Zing into spring! Chevrolet Impala

Chevrolet Impala Super Sport Coupe—one of two bucket-seated beauties for '65.

### People who buy other big expensive-looking cars get one thing you won't (big expensive-looking payments)

It looks like a big car. And is—by almost any standard you want to apply.

Width? Nobody builds a car as much as one inch wider. Length? It grew three inches more this year. Roominess? Every closed model's got three inches more shoulder room, front and rear, and more leg and foot room up front too. *Lazury?* Nice little touches like the look of mellow walnut across the Impala's instrument panel. And big touches. Like the fineness of the same body by Fisher workshop that makes some of America's most expensive cars look so expensive. *How about the ride?* Chevrolet engineers took the Jig-smooth one and smoothed it out even more this year. Also made it more stable by widening the wheel stance. *Custom features?* You can personalize your Chevrolet all you want because there are nearly 200 custom features to choose from. *Price?* That's where Chevrolets fall way short of the other big expensive-looking cars. But we wouldn't have it any other way. Would you?

One last question: How soon can you make a good spring buy on a Chevrolet? One last answer: Just as soon as you can get down to your Chevrolet dealer's.

Two youngsters awarded honorable mention were William Schmidt, 2225 Edna street, and John Robbers, 22 Del Rio drive. Judges were Robert G. Myers and John E. Elum, both members of model car and aeroplane clubs.

Mrs. Peggy Burch

I'M FOR VON DEE CRUSE

I've watched Von Dee Cruse develop into a leader with ability and purpose. He has the knack of being able to get a diverse group to work together and leading them toward common goals. Our mayor must be able to lead the council toward action that results in good for our city. Our mayor must be able to lead all the different personalities housed in the right direction. Von Dee can do this with the help of public spirited citizens. As he has said he would use, he will make his program come true. I am a member of the Granite City Democratic Women's Club and I know Von Dee will conduct himself in a manner that will make us all proud.

Mr. Dale Skeen

I'M FOR VON DEE CRUSE

I'm a retired senior citizen and I'm 100% for Von Dee Cruse. He has done more for me than I can say. He has been a real help to me. I don't know how to say it, but I feel that I can't live without him. I feel that I can't live without him. I feel that I can't live without him.

Nick Petrillo

I'M FOR VON DEE CRUSE

I have attended city council meetings and have seen four of the candidates in action. After seeing the things that Von Dee Cruse is doing for the city, I know Von Dee Cruse is the only man who has a chance to get the city together for the good of the city. I know Von Dee Cruse is the only man who has a real good program and who is willing to work for it. I know Von Dee Cruse is the only man who has the ability to lead the city. I know Von Dee Cruse is the only man who has the ability to lead the city. I know Von Dee Cruse is the only man who has the ability to lead the city.
